School Year 2019-2020

The International School Twente (ISTwente) welcomes applications from students from all over the world, who can demonstrate a need for international education. Students qualify for placement at ISTwente if:

- The student has a non-Dutch nationality or is a foreign passport holder and one of the parents or legal guardians is temporarily employed in the Netherlands.
- The student has a Dutch nationality and has lived and gone to school abroad for at least two years because one of the parents or legal guardians was stationed abroad.
- The student has a Dutch nationality and has a parent or legal guardian (with whom the student will be living) who will be stationed abroad within two years and for at least two years. This is to be proven by a written statement of intent by parent or employer.
- From 2017, Dutch nationals applying to the IB Diploma Programme (for the exact requirements for this group, please see our Admission Policy amongst our downloads on the website www.istwente.org).

Once accepted, children may start school in August/September after they have reached their fourth birthday. Where possible, the school will accept children soon after they turn four, for example: a child turning four in November would usually be able to start the following January.

Admission to ISTwente is dependent upon the school programme being appropriate to the applicant's needs and the places available. The assignment of a child in a particular year level will be determined by the school management through past school records, personal interviews and where necessary contact with the previous school. Where appropriate, applicants will be required to take entrance testing.

ISTwente is a mainstream school, and for further details on the extent of support offered, we kindly refer you to the Admissions and Language Policies on our website www.istwente.org.

Annual School Fees

ISTwente is officially recognised by the Dutch Ministry of Education, which contributes funds to the school. These government funds cover approximately half of the actual costs. Parents are therefore required to pay school fees, which are charged annually in advance, to cover all other remaining expenses. Please note that annual school fees are tuition fees and not a voluntary 'ouderbijdrage' as applicable in Dutch schools.

When signing the application form, parents enter into a contract with the school on agreeing to the Standard Terms & Conditions stated in this document. The school fees for both primary and secondary can be found in the table below:

	Primary	Secondary

Confidential Information

It is our school's practice to show photographs and video footage of school activities and events on the website, social media and in various school publications. ISTwente may also include them in press releases and advertising. At the beginning of the school year, parents will receive a form in which they can indicate whether they grant permission, or not, for the publishing of their children's photos. This form will be kept in your child's file to ensure compliance with your wishes.

For security purposes, ISTwente has security cameras in operation on the school premises. These images will be stored for a limited period of time and will only be referred to should circumstances necessitate viewing.

Parents accept that it is the school's legal duty to provide requested information to Government Ministries. This is usually information relating only to age and nationality.
